

# RUPEE CONVERSION CHEAT SHEET

**Purpose:** A handy pocket chart used to get a ballpark of USD to INR (Indian Rupee) Conversion. Designed to be approximately the size of a business card to easily fit into your wallet.

**Procedure:** 1) Enter the current Rupee conversion in the green field if it's different from what is shown (note: only modify the ONE green field on the top chart). The other fields on the rest of this page will automatically populate based on that variable.

<< Here is the one green cell.

2) Print and cut along the outside lines and fold in the middle. Trim after folding.

**Tip:** Laminate or use clear packing tape to protect from humidity if you plan to put in your pocket.

< Do not modify number of rupees on this card. As mentioned above, you only need to modify the one green cell in this document to populate the rest.
