

Moriah High School – Early Childhood Education Center (ECEC)

Moriah School was established in 1999 by the late Mrs. Deva Karuna Dasari who received educational opportunities as a young girl in the village through a private school similar to this one. The school serves children from pre-kindergarten up to 10th class. The Moriah High School has passed the rigorous standards and requirements to receive private school accreditation. The school is unique because it receives support in the form of materials, professional development, and opportunities to collaborate with teachers from the US.

The mission of Moriah High School is to offer and provide an excellent education for children from all socio-economic levels with the goal to help them become eligible for meaningful and fulfilling opportunities with employable skills. Moriah school will teach and nourish the whole child, which embraces the intellectual, emotional, social, physical and spiritual growth.

The Vision of Moriah High School

- Lives of students and their families will be enriched through their education.
- All students will become proficient in reading, speaking and writing using English and all courses at Moriah School will be taught in English.
- Early Childhood Education will prepare learners to excel in their future education.
- Students will achieve their full educational potential.
- Students who enter Moriah High School will continue through graduation and be prepared to seek higher education or a meaningful vocation.
- Students will have a desire for lifelong learning and service to others.

Job Description

Position Title: Early Childhood Teacher

Moriah School Early Childhood Education Center seeks to provide a premier education to students ages 3-8. The ideal candidate will be capable of implementing a new way of teaching young children at Moriah that will include:

- Pedagogy to make learning holistic, experiential, integrated, inquiry-driven and learner-centered for attaining optimal outcomes in all domains of development;
- Creating a welcoming environment for all students and supporting the mission statement;
- 21st century specific skill sets which will teach “how” to learn, replacing rote learning;
